

AFGHANISTAN ENGINEER DISTRICT-NORTH

FY 2011

Construction Program

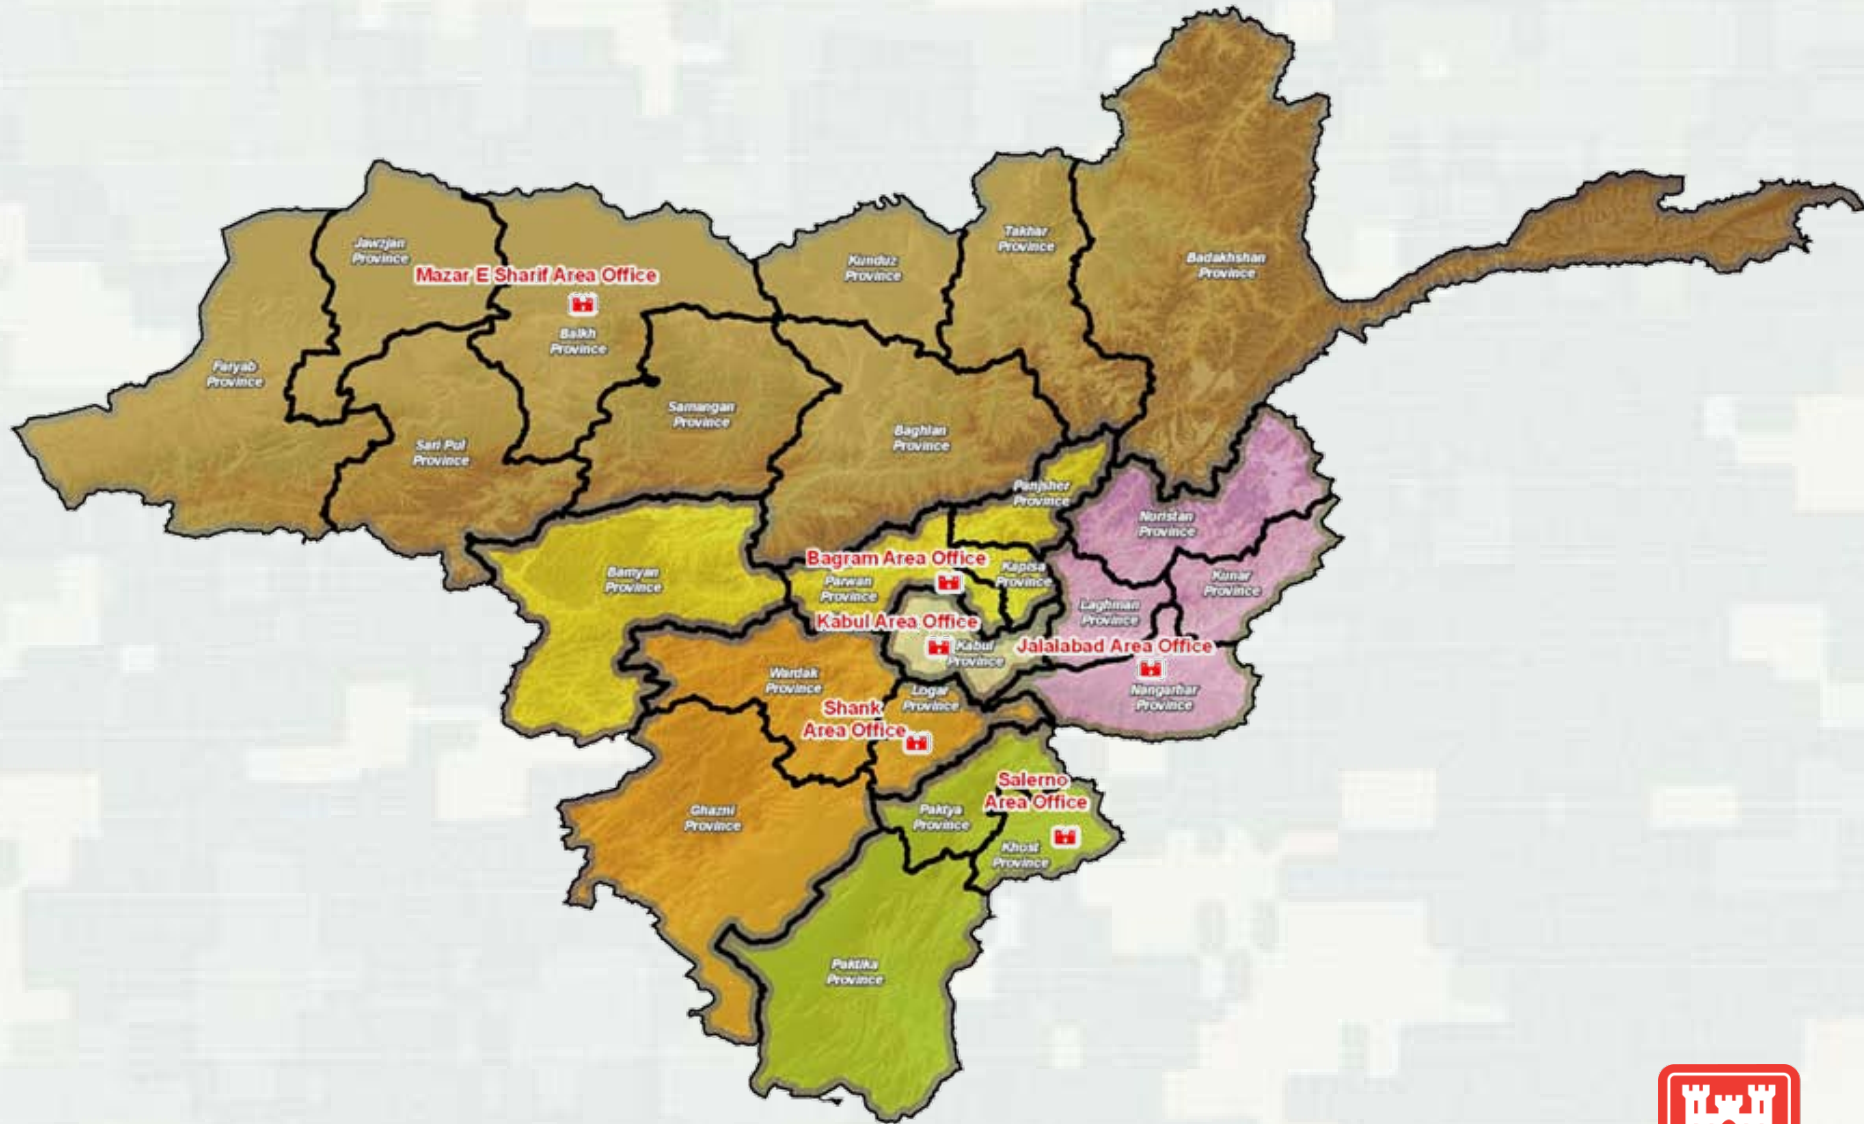

US Army Corps of Engineers
BUILDING STRONG®

INTRODUCTION

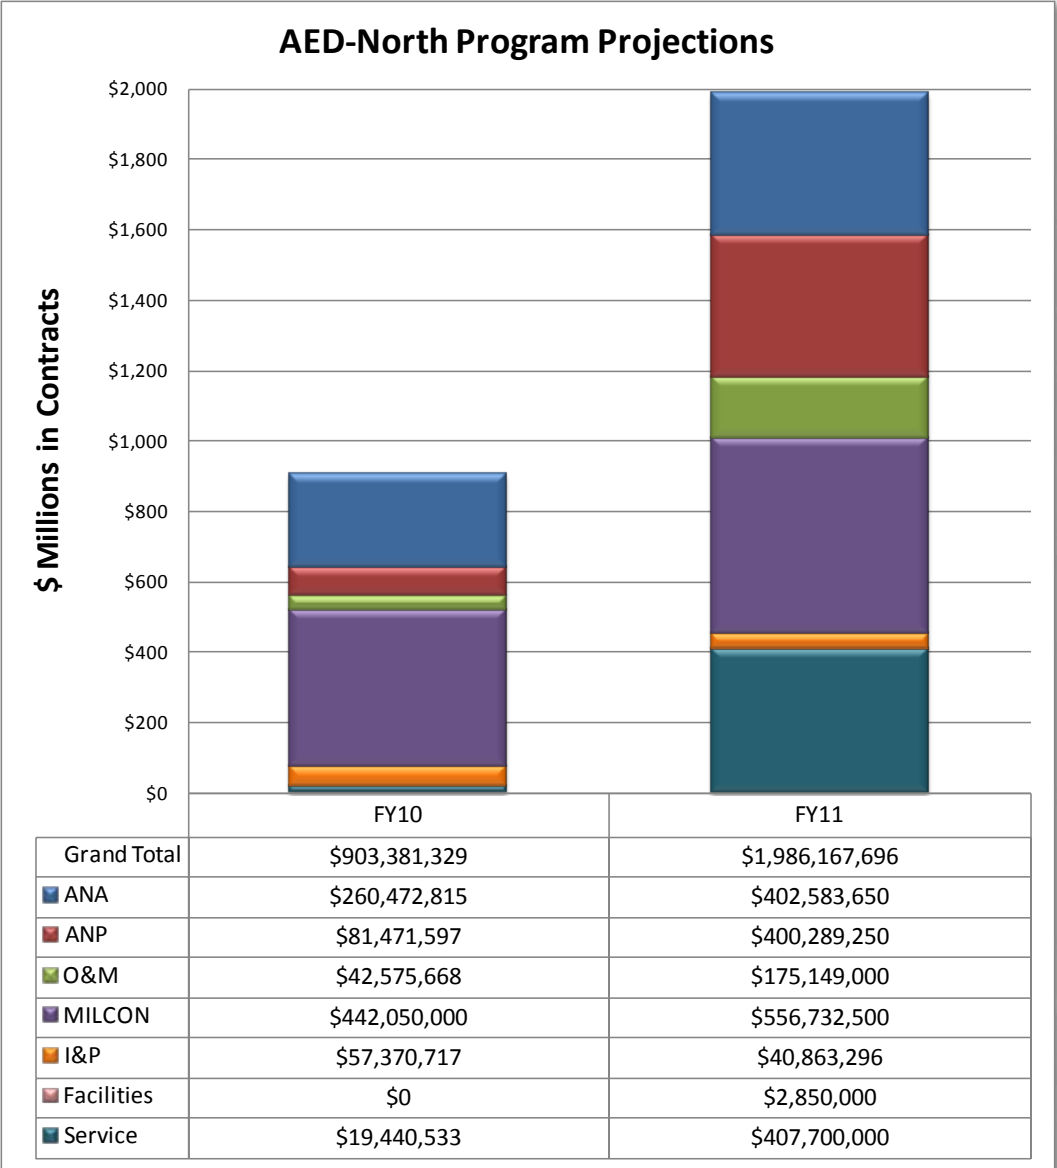

COL Thomas H. Magness

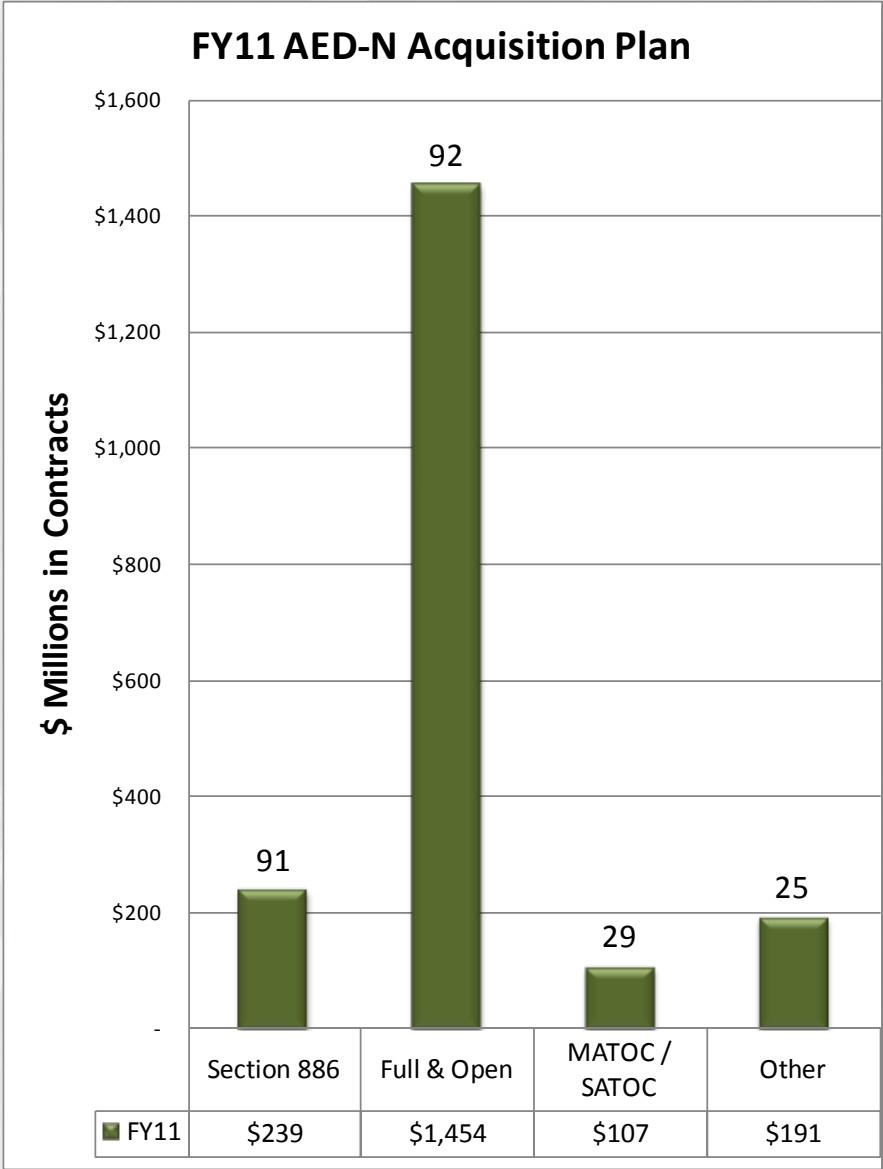

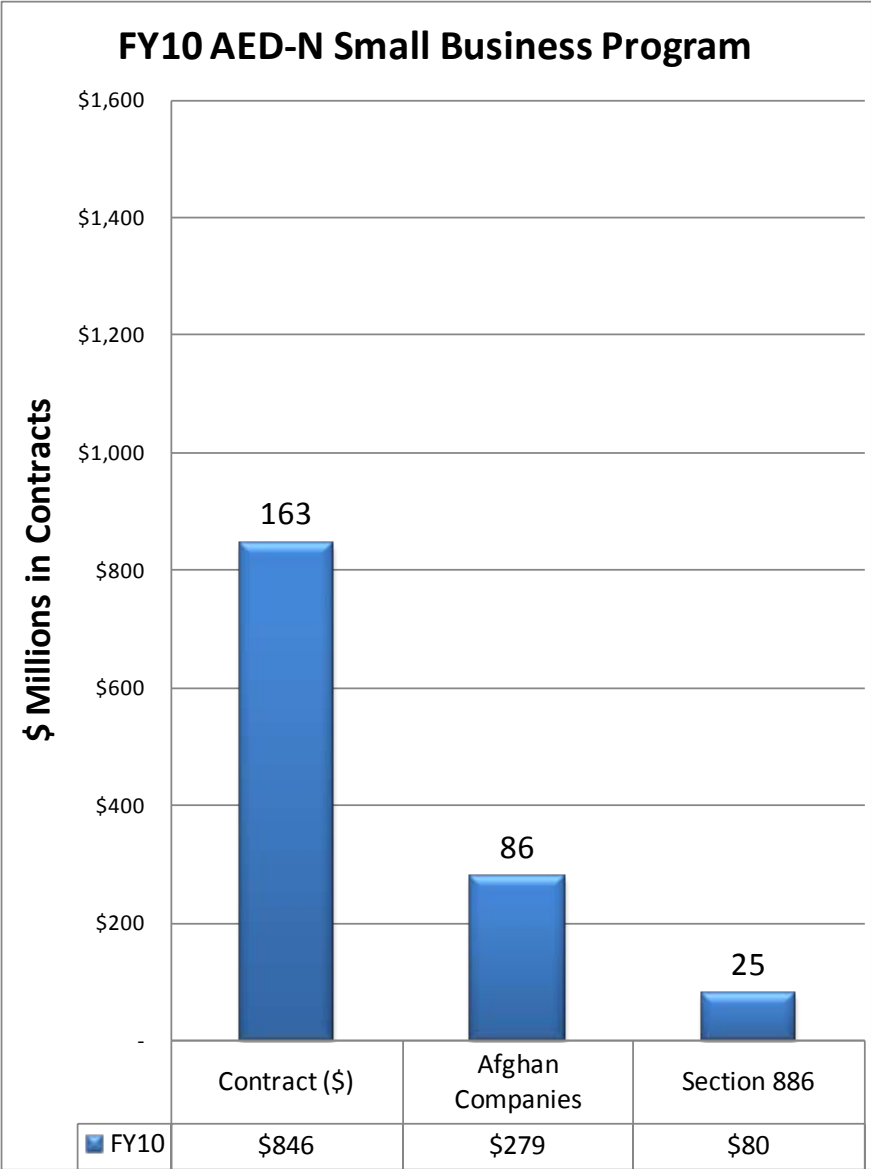

Afghanistan Engineer District - North

FY11 Program

Small Business Program

Standard Designs

Pipe and electrical conduit / fixtures are surface mounted

Trough sinks replace wall mounted

Dor Baba Border Police Company

Border Patrol Company

Achin Border Police Company

How to Successfully Work with USACE

1. Demonstrated Record of Performance
2. Relationships, relationships, relationships – Know your Area / Resident Engineers
3. Understand the Army Corps of Engineers Project Delivery Process
4. Know your strengths and weaknesses
5. Use the Corps website
<http://www.aed.usace.army.mil/AEN-Index.asp>
6. Be a part of the solution. Help us meet our goals
7. Deliver!

BUILDING STRONG®

FY11 PROGRAM

Kevin Salvilla, Deputy Director of Programs and
Project Management Division

What USACE Builds

ANA Kabul Military Training Center (KMTC)

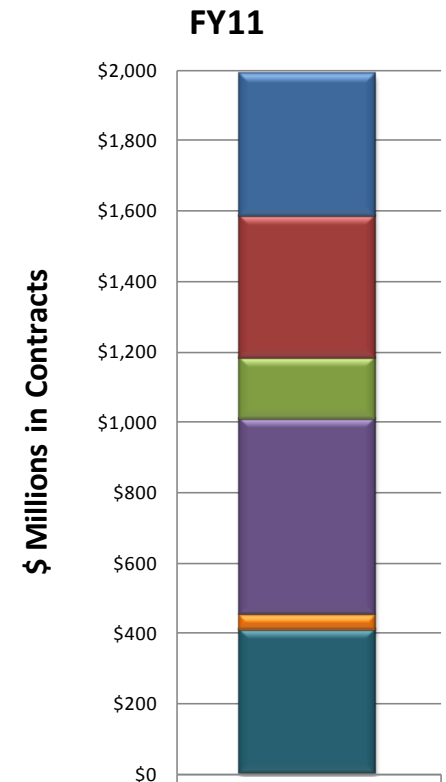

ANP UP District HQ

MILCON Shank C-17 Runway

I&P Road Construction

	FY11
Grand Total	\$1,986,167,696
ANA	\$402,583,650
ANP	\$400,289,250
O&M	\$175,149,000
MILCON	\$556,732,500
I&P	\$40,863,296
Facilities	\$2,850,000
Service	\$407,700,000

FY11 Program

- Approximately \$2.0B worth of contract opportunities in Northern Afghanistan

Area Office	Contract \$	# Projects
Mazar-e-Sharif	\$396M	75
Bagram	\$325M	28
Jalalabad	\$111M	20
Kabul	\$302M	49
Shank	\$143M	19
Salerno	\$125M	26
Other	\$587M	15
TOTAL	\$2.0B	232

CONTRACTING WITH USACE

J.W. Purcell, Contracting

Section 886 / Afghan First

- Limits competition to products, services, and sources from Afghanistan and is authorized by Section 886 of Public Law 110-181.
- To qualify, a contractor must have a Domestic AISA license and have at least 51% Afghan ownership / investment.
- Each solicitation sent to pool of Section 886 contractors, recommended through field offices to Program Manager.
- Recommended lists created through recommendations of:
 - ▶ Past performance as subcontractors
 - ▶ Interviews with field office personnel
 - ▶ Source Selection Boards for previous Full and Open solicitations
 - ▶ Vendor database information

Afghan First Registration

Afghan First Vendor REQUIREMENTS

You MUST have an AISA License in order to submit this form.

The AISA License is the application process for a Tax Identification Number.

For more information, visit the following link.

Afghanistan Investment Support Agency (AISA)
<http://www.aisa.org.af/applications.html>

Do you have the required documents listed above?
If yes, please continue

Helpful Hints

1. Read through the entire Statement of Work (SOW). If there is an attachment or reference mentioned, read this also.
2. Make a list of (or highlight) the important points in the SOW.
3. Identify all requirements and reports in Sections 00110 and 00120.
4. When preparing your technical proposal, ensure that you answer each of evaluation criteria points.
5. Be thorough but do not submit more pages than required.
6. Make sure you respond to solicitation amendments and acknowledge each one.
7. Contact Information
 - Please provide a primary and alternate contact when submitting your proposal. Name, address, E-Mail, and phone number. If we can't contact you, then your company does not get the award.

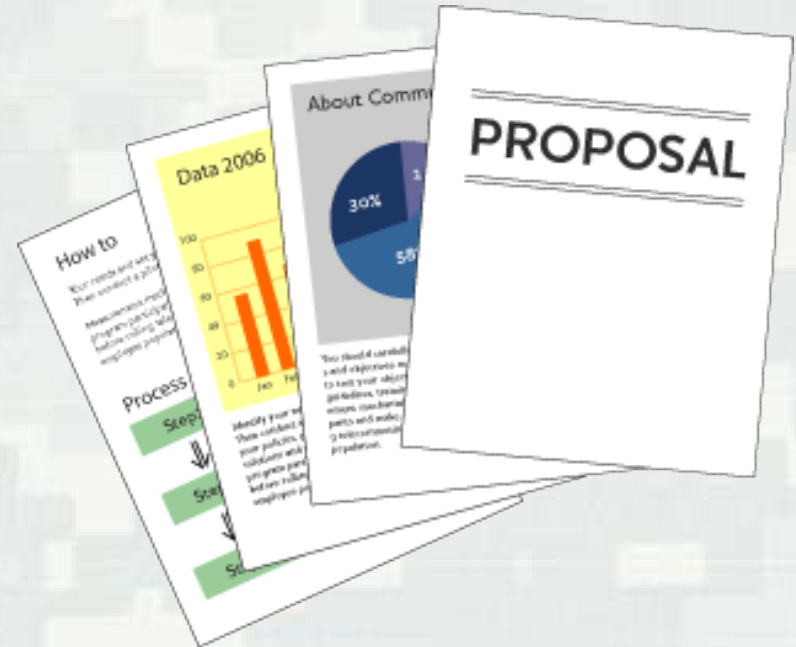

Helpful Hints

8. Past Performance/Experience

- Past performance is a VERY IMPORTANT evaluation factor.
- Provide previous Government and Commercial contracts with work that is RELEVANT to the requirement for which you are submitting a proposal.
 - Contract Number, Agency/Company, Contact Information
 - Verify information submitted in your proposal
 - Contact your references to let them know we will be calling them
- Subcontracts, Teaming Agreements, and Joint Ventures count also.

9. Proposal Identification

- Put your company name on all pages of your proposal.

Proposal Format

- Technical
 - How are you going to accomplish the work? Project outlined in Section 00110?
 - How many Afghan workers are you going to use?
 - How are going to make sure your workers get paid on time and a fair amount?
 - Talk about a security plan (How are you going to protect the job site and the workers?)
 - Include a detailed schedule of when you will complete each task for job completion
- Price
 - Give a breakdown of all items and labor if asked in the proposal
 - NO MARKUPS
 - Profit should only be 8% to 15% depending on difficulty and complexity
- Past Performance
 - Include a list of the kind of work, the location, dates, price, and names & contact information of the Contracting Officers and their representatives for each project

How to Submit

- Evaluation Criteria
 - ▶ Highest quality of work as determined from your Technical Proposal
 - ▶ Shortest amount of time to complete the project
 - ▶ Greatest number of Afghan workers used on the project
 - ▶ Plan for Security
 - ▶ Lowest price that is reasonable and is within 25% of the Independent Government Estimate and 25% of the Average of all Proposals

**THE LOWEST PRICE
DOES NOT ALWAYS WIN THE CONTRACT.**

- Now that you have completed your proposal and it is error-free
 - ▶ Time to submit your Proposal by hand delivery.
 - ▶ Please bring your proposal to the U.S. Corps of Engineer Headquarters compound at Qalaa House, Kabul, Afghanistan.
 - ▶ Package must have Attention: To the appropriate Contracting Officer (by name as stated in the solicitation).
 - ▶ Must be accepted and stamped by Security guards no later than the time stated in the solicitation.

USACE CONSTRUCTION PROCESS

Mark Jones, Chief of Engineering & Construction

Elements of Successful Construction Projects

Construction Quality Management

CQM (Construction Quality Management)

- Pre-Construction Conference
- Quality Control (Contractor) and Quality Assurance (Government)
- Three-Phase Inspection: Preparatory, Initial, Follow-up
- RMS/QCS data quality
- Schedule Management
- Payment Requests (Subcontractor Verification)
- Contract Modifications
- Project Closeout - Contractor Evaluations (Interims)

Benefits of CQM

- Increased profit and production
- Improved planning and communication
- Effective quality control (QC) system
 - ▶ Preventive versus reactive
- Produce/maintain acceptable records
- Produce end product complying with contract

Safety First

Management Leadership and Employee Involvement

- Managers must value the life and health of all workers – and communicate that concern to them by their words and actions.
- Supervisors must act when at risk behaviors or unsafe conditions are seen.
- Employees must also accept responsibility for their own safety.

Worksite Analysis

- Before work begins the hazards of each feature of work must be identified.
- Hazard Prevention and Control
- Based on the worksite analysis of identified hazards controls must be identified and implemented.

Safety and Health Training

- Managers & supervisors must be trained on the hazards and controls.
- Qualified Site Safety & Health Officers and other competent persons must be employed.
- Workers must be trained in the hazards and controls

DBA – Defense Base Act Insurance

Safety first! Workers at the Pol-e-charki Afghan National Army construction site demonstrate an understanding of safety on the job by using body harnesses properly as they erect scaffolding.

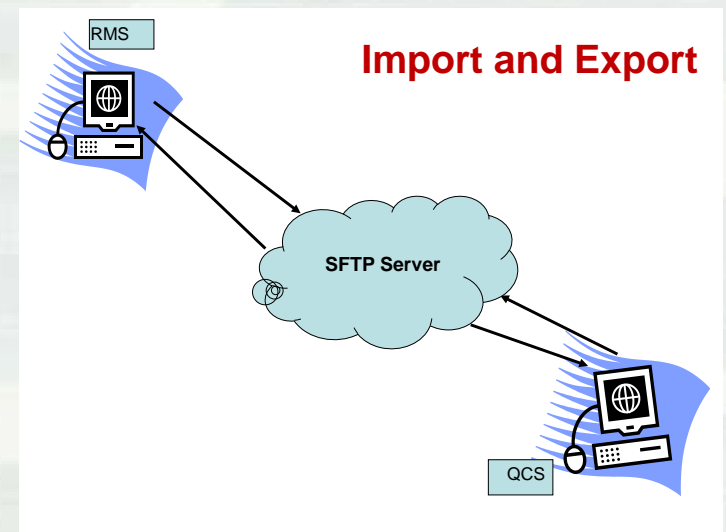

RMS / QCS

Resident Management System (RMS)

- The RMS Program used by Government QA personnel to support Construction Quality Management and Administration.

Quality Control System (QCS)

- The quality control module of the main RMS program. It is the program to be used by Contractors to interface with the RMS program for both contract administration and quality control requirements.
